Shandong Dingdang Pet Food Co., Ltd.

Shandong Dingdang Pet Food CO. Ltd. (hereinafter referred to as “the company”), is founded in 2014, located in the Circum-Bohai Sea Economic Zone—Binhai Economic and Tech Development Zone (one of the National Economic & Technological Development Zones), Weifang, Shandong. The company is a modern pet food company that integrates R&D, production and sales over an area of 20,000 square meters. With 3 standard pet food manufacture and processing workshops and over 400 employees, including more than 30 professionals with a bachelor's degree or higher, and 27 full-time staff dedicated to technology development and research, its annual capacity could reach about 5,000 tonnes.

With the most professional assembly line and advanced information based management mode, the product quality can be fully guaranteed. The product range currently includes more than 500 types of products for export and more than 100 types for domestic sales. There are two categories of products for dogs and cats, including pet snacks, wet food and dry food, which are exported to Japan, USA, South Korea, EU, Russia, Central-South Asia, the Middle East and other countries and regions. With long-standing partnerships with companies in many countries, the company will also spare no effort to further expand the domestic and international markets. As one of the High Tech Enterprise, High-tech SME, Credit Enterprise, and Labor Security Integrity Model Unit, the company has already authorized by ISO9001 Quality Management System, ISO22000 Food Safety Management System, HACCP Food Safety System, IFS, BRC, and BSC-I. Meanwhile, it has registered with the US FDA and officially registered with the European Union for pet food.

Shandong MaoHe Pet Food Co., Ltd.

The company's second-phase factory is under construction, aiming to further expand production scale, improve production efficiency, and meet the growing market demand. The new factory covers an area of 100,000 square meters and will set up six workshops with different functions, dedicated to production, processing and packaging respectively, to provide all-round production guarantee for the company's products. The company will build a dedicated canning workshop to meet the growing market demand for canned products. The new canning workshop will use advanced production equipment and technology to ensure product quality and safety. Through a carefully designed production process, the company plans to produce thousands of tons per year to meet the growing market demand.

A new freeze-drying workshop is under planning and construction to expand product lines and meet the growing market demand for freeze-dried foods. The new freeze-drying workshop will introduce efficient freeze-drying technology to ensure that the products maintain their original nutritional value and taste. The company also plans to set up a dental bone workshop in the second phase of the factory to produce high-quality dental bone products. As a natural pet food, dental bone is favored by pet owners. The new dental bone cleaning workshop will introduce advanced production equipment and adopt scientific formulas to ensure that the products have excellent taste and nutritional value. The company will be committed to providing dental bone cleaning products in a variety of flavors and specifications to meet the needs of different pets.

MOVING FORWARD

WITHOUT STOPPING

The second factory is under construction

2023

2022

The company expanded its factory in 2022, and the number of workshops increased to 4, including a packaging workshop with 100 employees.

In 2021, the company established a domestic sales department, registered the trademark "It Taste", and set up a domestic franchise base.

2021

2020

In 2020, the company purchased canning, cat stripping and poaching machines capable of producing 2 tonnes per day.

With the completion of various food-related certifications in 2019, the company is eligible to export its products.

2019

2018

In 2018, a five-member team was established for product quality control.

The company increased its production staff to 200 by establishing an official factory in 2017, including two processing workshops and a packaging workshop

2017

2016

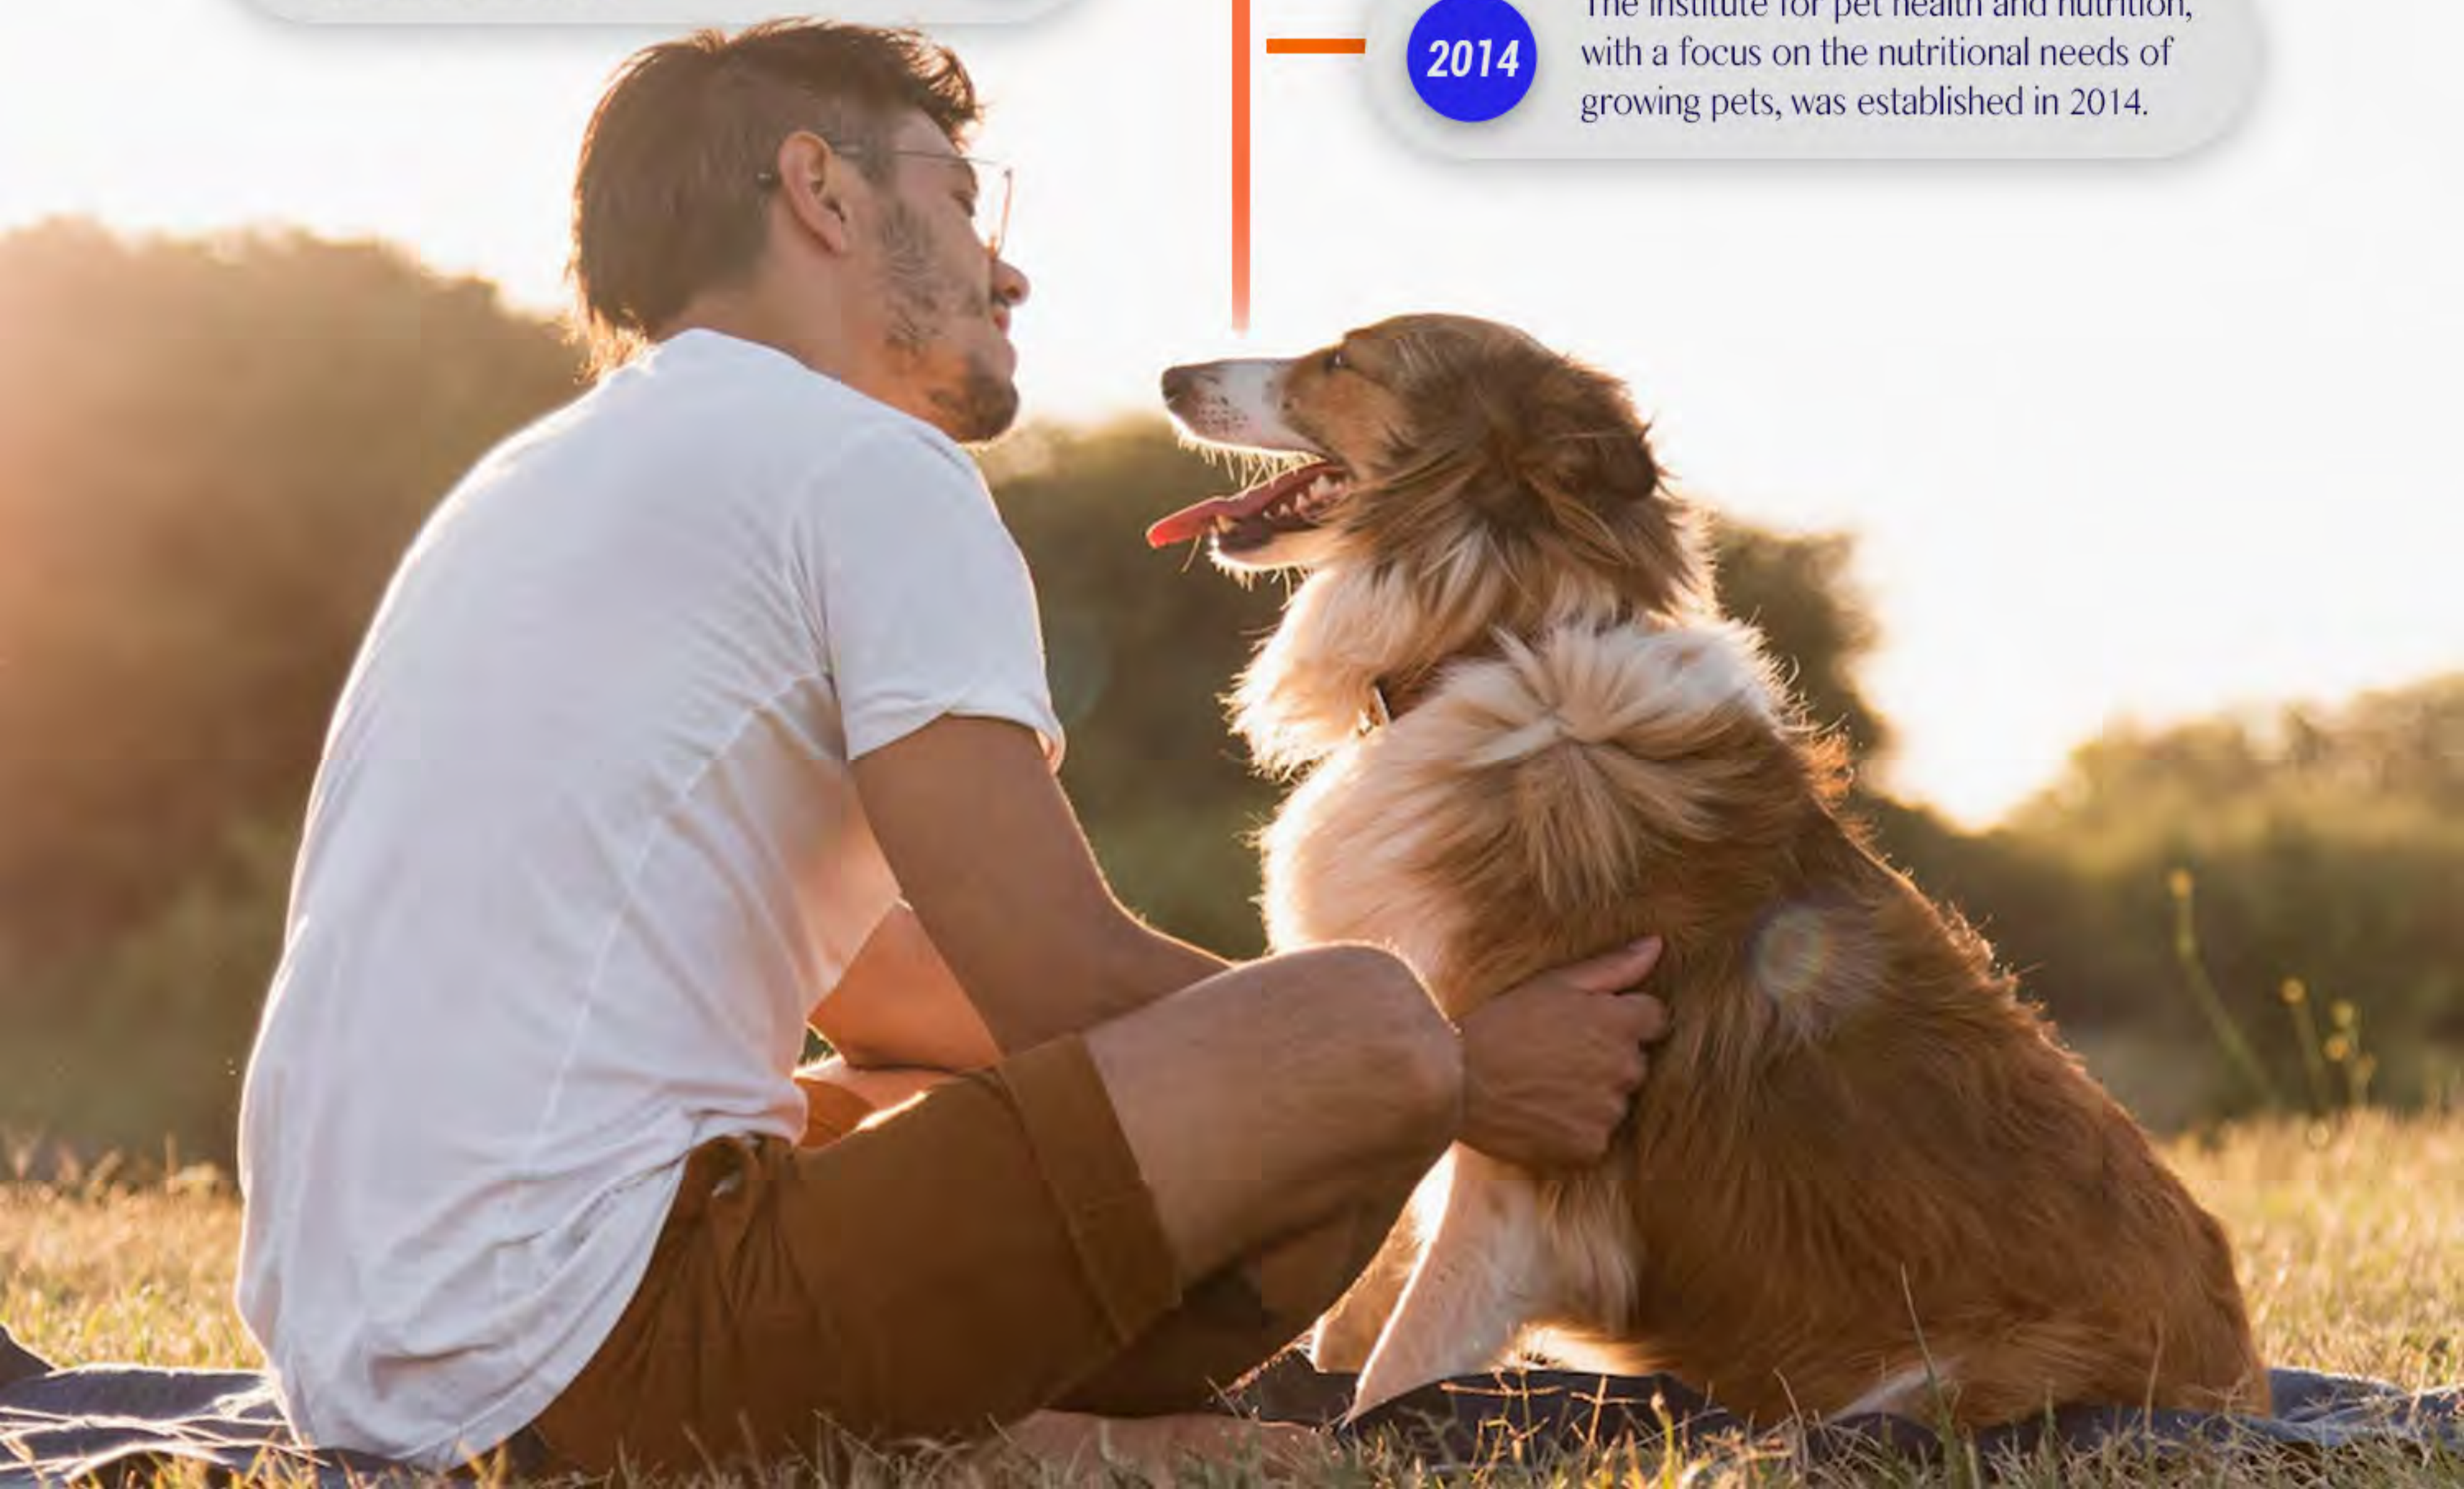

A Sino-German joint venture pet food company was established in 2016, following the company's relocation to Binhai Economic and Technological Development Zone.

The first pet food R&D group, with cat snacks as the main direction, was established in 2015.

2015

2014

The institute for pet health and nutrition, with a focus on the nutritional needs of growing pets, was established in 2014.

It is a integrating design, manufacture and sales

● **The Company has gradually grown in size and the number of production personnel has increased from 90 to 400.**

the Company would be able to expand its operations, hire more top professionals and fully expand its production space. By completing an integrated structure from raw material sourcing to production and delivery, it will be able to deliver consistently and be more competitive in the global supply chain system.

— **The R&D technology is more sophisticated and products are expanded from cat treats to all categories.**

With shared resources, the Company will have instant access to the most accurate market data available to further optimize the R&D directions and develop products that better match market preferences based on pet owners' purchasing trends. This will give it more pricing power than others.

— **Thanks to more advanced production technology, the Company has faster production and more consistent quality.**

After communication between both parties, the Company has improved the workshop management system. With the rational allocation of operators and supervisors and the assembly line, product quality and timely delivery can be fully guaranteed.

— **The sales scope has grown rapidly, from a reliance on regular customers to an expansion into 30 countries.**

Through sharing and interaction, the sales resources of both parties will be integrated to further expand the sales coverage, which would promote the rapid transformation from OEM and ODM to OBM, enhance market competitiveness, and ultimately raise the global visibility of China's pet food industry and even the national brands.

Sino-German joint venture

As a Sino-German joint venture, we always uphold the ultimate pursuit of quality, rigorous work style and unremitting innovation spirit. We always provide our clients with suitable solutions

Quality Control

All of our customers and orders, big or small, are valued and treated equally. We are committed to providing our customers with high quality products and services.

01

RAW MATERIALS

All the raw materials used in our products are from CIQ registered farms. They are carefully controlled to ensure that they are fresh, high-quality and free from any synthetic colors or preservatives to meet health standards for human consumption.

02

TIMELY DELIVERY

With sufficient processing and production staff, dedicated delivery person and cooperative logistics companies, each batch can be delivered on time with the quality assured.

03

PRODUCT SAFETY

From the process of raw materials to drying to delivery, each process is supervised by special personnel at all times. Equipped with advanced instruments such as metal detector, XY105W XY-W series moisture analyzer, chromatograph, as well as various basic chemistry experiments, each batch of products is subjected to a comprehensive safety test to ensure quality.

04

STABLE QUALITY

The company has a professional quality control department, staffed by top talents in the industry and graduates in feed and food. As a result, the most scientific and standardized production process can be created to guarantee balanced nutrition and stable quality of pet food without destroying the nutrients of the raw materials.
